

- Authority doesn't argue or explain to children - explanation is pure grace
- to paraphrase: if you can't obey your parents whom you have seen, how can you obey O whom you have not seen?
- Question: Can teenagers be filled w/ Spirit? Any Xian can & should be - The greatest obstacle is their submission to authority.
- Need to define love - agape "he that speaks the word hates his child = is not giving himself for child's highest good.
- O has no spoiled children = rebellious but not spoiled.
- Eh 6 = provoke not, discouraged = break their will but not their spirit
- O has made us so we operate properly only under discipline - an unconscious desire to be disciplined
- Discipline is the teenager's security blanket - they won't admit it.
- Love disciplines - kids who are allowed to do as they please feel no one loves them. Strange isn't it!
- Needed - a standard; Normalcy = Eh 5 is O's description; normalcy = O started w/ me inside, then the outside gets right - like dropping a rock in center of pond & ripples extend to outer edges
- Spirit-filled Rome is the spirit-filled extending itself.
