

Meaning of Endurance

~~Testing, trial~~

It is much more than waiting, passive.
It describes the attitude ~~by~~ which we
wait. It's for it - if I delay, we have no
choice but to wait - but the key to
receiving the promise is how we wait.

1- To bear up, remain steadfast - bridge
The gap between "do, will, I" & "receiving
the promise"

picture of athlete =

2- Staying power = instead of trying to
escape, staying here, standing fast.

The goal is at end of race - no matter
how fast etc, unless he endures till the finish,
won't win prize - sometime he slower manner
wins.

3- Trials & testings

4 - Emergent attitude

5- Expectation - not just waiting but
waiting for something or someone.
