

you ^{can't} have the peace of God + tell you
have to of peace.

Phil 4: 4-7

Intro? = I despise this kind of advice —
grown weary of the ~~the~~ back slappers who
give free & easy advice on not to worry —
except when it comes from Paul or X —
— here are presented two alternatives — & only
two = either worry or pray; the choice
is yours

Either a thermometer registering the
temperature of your environment or a
thermostat setting the temperature

Thought Control = Go up to Pastor at
Convention = "How's that difficult?" — Tell
you about it!

Peace of God more effective than Positive
Thinking, Psychology, Positive mental
attitude, etc.

Worry a symptom of faithlessness &
faithlessness is a sin. Mk 9 - "O ye
of little faith." He had said, "Let
us pass over to the other side." & when
he says that he means to get to the
other side —

The sign that all would be well,
was Jesus sleeping =

So, worry must be a ~~sign~~ sin —
It doubts word of God, denies what he says.
