

Rom 6:16-23) Intro: Crucial moment in ... century history
 Alas I'm alive in this day - I gave dominion over all things -
 conquered earth - space distance measured not by miles but hours
 LA to London 10 hrs - sea + months underneath - now
 space) year 2,800 PH - color telecast from 204,000 miles in
 space -
 man has conquered everything but himself - outer space,
inner space - made a neighborhood but not a
Brotherhood - Don't have to be in Who's Who to
know Who's Who = neighborhood of our Brotherhood spells
 Trouble.

unless man gets victory over inner space his victory
 over outer space will turn on him - he'll be sending
 soldiers to fight in the moon & scriptures literally
 true - "moon shall be turned to blood."
