

II. The Sin Loose = entangles, tugs him
up - a garment w/
long, flowing train.

1- The sin, definite article points to
a particular sin

2- easily entangles us - why? - The
word itself = well, bravo, status -
popular, admired -

we admire it, it has gained status
in our lives - hypocrisy, gossip,
love of power

"The sins which men admire."

"The sin which all too readily distracts us."

well surrendered = the idea being that of a robe
in a race, which because it would cling closely around
the form has to be laid aside.
