

Greatest undertaking - blueprint drawn before found. - took 4000 yrs to lay foundation - cost staggering. - So great engaged each member of Trinity = amazed to discover what goes on behind scenes - still walk sup - this first is a hole in the curtain, reveals what went on backstage - to see how all brought about.

God's dealings w/ men (saves & lost)

3 propositions

every thing that happens to us part of God's plan Acts 15:18

Directed by me
 I. foreknowledge of the Father = know beforehand, previous + basis of His counsels
 1) First step in bringing answer to soul. God's blueprint calls for this first divine council chamber, whole course of human history, laid before eyes of God. TO US: course of world dark, perplexing, complex - like road a letter held up to a mirror - backwards - at end, will be reversed - But now known only to God Acts 15:18

2) God does nothing w/out a Purpose - w/out fore - no soul. - God knows what He's doing. 4) we are what we are in accordance w/ God's foreknowledge - everything going according to plan - God knew what would happen -

5) fore-basis of all He does = warnings, promises, predictions - God arranges all things to fit into His purpose - your presence here = all part of God's plan to save -

99 = heavy signs - dangerous curve - based on their foreknowledge - what lies ahead - we don't signs to warn, direct us - only fools ignore them

6) If God knows how everything turn out - makes sense to follow signs, let Him direct = marriage, business, life.

7) - Comfort = to know my life driven by someone who knows the way, every turn in the road

8) Life ordered by Father, not judge

We would be amazed if know all involved working our life

- weave fabric of life w/ unseen threads
- US 1 - what we are
- US 2 - How we got that way
- Intro: visible things depend upon hidden things - root, flower: blood's life, foundation & build

This foreknowledge is the reason He does what He does.
