

## THE SECOND TIME AROUND

Opening statment in chapter:

Sex may be "doming what comes naturally" but marriage isn't.

Marriage doesn't create problems, it only exposes problems never solved.

A Christian home isn't a home in which the members are Christians.

Paul starts in Heaven, ends up in the Home!

PERSONALITY conflicts in marriage -- or anyweher else, for that matter -- My self ~~xxxx~~ life irritating your self-life

THINK FAMILIES: We've gone at this thing in the wrong way. We've said, Let's build the church, the Sunday School, the budget, etc. **We need to change out focus and aim at building FAMILIES.** If we have strong, spiritual families, the rest will follow.

Can't build a spiritual church out of carnal Christians.

The Home ought to be an extension of the church; there must be an atmosphere in the home conducive to learning and living Scripture.

FIRST GOD ACTS, then helps us interpret the act. My own personal experience of being filled. When revival came to church, I wondered that the youth were on the outside, it was happening among the adults only -- other churches were having it among the youth only. I see now God did it this way to stablize the revival. Also noticed the effect the revival had on the homes, young couples coming to the altar, etc. No church can have sustained revival unless it spills over into the home situation.
